MORE THAN A DEGREE

The University of Westminster is a place where discoveries are made and explorers are celebrated. A place where you feel safe to be yourself, to start your journey and embrace the real you. A place with an unmistakable London energy.

A place to have the time of your life.

We started breaking barriers more than 185 years ago – helping people from all backgrounds explore their passions and fulfil their ambitions, however big or small they may be.

So, whoever you are, wherever you're from and wherever you're going, make the University of Westminster your first destination.

You can be assured that it is okay to:

Joining our community means being part of a supportive, diverse, and positive environment that appreciates you for who you are today and who you aspire to be in the future.

Our students are the heartbeat of our University and your success starts with feeling comfortable and confident in your surroundings.

Teaching Excellence Framework

The Teaching Excellence Framework encourages and recognises high-quality teaching and student outcomes. This award recognises the very high quality of our students' outcomes and the work of our colleagues to enable these. From alumni mentoring, to authentic assessments, to co-creation projects with our students as partners, we strive in everything we do to support all students to have an authentic, personalised and transformative experience.

Professor Peter Bonfield, Vice-Chancellor
Dr Sal Jarvis, Deputy Vice-Chancellor (Education)

Teaching on undergraduate courses is usually split into modules lasting either for the whole academic year or for one semester (half a year). The academic year normally starts in September and finishes in June. Each year includes three-week vacations at Christmas and Easter. The confirmed dates are published on our website at westminster.ac.uk/university-calendar

You will be notified of any changes to term dates in the pre-enrolment information. Information correct at the time of printing. For up-to-date information please check the website.

WORKING TOGETHER, FOR YOU

Our Vice-Chancellor, Professor Peter Bonfield, and Students' Union President, Taruna Bangia, are committed to working together and striving for the best possible student experience. They sat down to chat about all things Westminster...

How do you think Westminster students benefit from studying in London?

Taruna: London is more than just a backdrop. It's full of opportunities, cultural exploration and exciting activities.

Peter: London is a really diverse, vibrant, culturally active, business place. It's been ranked as the number one city in the world for students to come and study in. We are right in the heart of this amazing city.

What do you think sets Westminster aside from other universities?

P: Firstly, the diversity of our community and feeling safe to belong. The second is our way of teaching. We teach the theory, but then we support our students to apply the theory in ways that work for them. And then the third is our inclusive, vibrant community.

T: We've achieved Silver in the Teaching Excellence Framework (TEF). This means that our standard of delivery in teaching and student experience is typically of a very high quality. I feel very grateful to be a part of this university because it has presented a lot of opportunities for me to grow.

We place a strong emphasis on equality, diversity and inclusion, but what does that actually mean for our students?

T: We champion equality, diversity and inclusion; it's not just a tagline. I feel like it's actually very well

It's very safe to be yourself at Westminster.

**Professor Peter Bonfield
Vice-Chancellor**

woven into the fabric of our university's culture, our ethos and our goals, and basically what we stand for.

P: It is essential to have that culture underpinning everything, so all our students feel safe to be themselves and to thrive in our Westminster community.

What advice do you have for prospective students who are currently researching which universities to apply to?

T: You need to realise what your values and your ethos are, and then research different institutions and see what their goals or objectives are. Westminster was the one for me. I'm truly grateful that I made that decision and I believe that it's going to be nothing short of transformative for other students as well.

P: The most important aspect to consider is what does it feel like at our university. Do I feel I'm going to belong in this community? It's very helpful to come to an open day. I would recommend you speak to our student ambassadors, because they're the people that are existing students, who can tell you what it feels like to study at Westminster and to be part of our community.

At Westminster, we place a strong emphasis on practical learning. Why is that?

P: By teaching the theory and then applying it through practical application, it really helps our students take forward what they've learnt, to discover things, build their strengths and their confidence. And of course, in work, that's a reality. So it's very much part of preparing people for the world of work.

T: In my class, we used to do a lot of site visits. We used to have industry collaborations, guest lectures where people just came in and talked about what real-life working experience is. There was a very practical approach, a very hands-on approach to our course.

How would you sum up Westminster in three words?

T: Inspiring, innovative and inclusive!

P: Wonderful, alive and inclusive!

Head over to **our YouTube channel** to watch the full interview.

LONDON IS OUR CAMPUS

Westminster is a global university with vibrant campuses that inspire learning, while meeting your practical needs.

Our courses are taught across four London campuses – three in central London, all within walking distance of each other – and a fourth in Harrow, north-west London, which is just a 20-minute tube ride away.

CAVENDISH CAMPUS

- A five-minute walk from Oxford Street and Tottenham Court Road
- Subjects taught at the campus include Biomedical Sciences, Computer Science and Software Engineering, Nutrition and Psychology

REGENT CAMPUS

Our Regent Campus comprises two sites in central London, both within a few minutes' walk of Oxford Street:

- 309 Regent Street – subjects taught at this site include Criminology, English, History, Languages, Politics and International Relations, and Sociology
- Little Titchfield Street – our Law courses are taught here

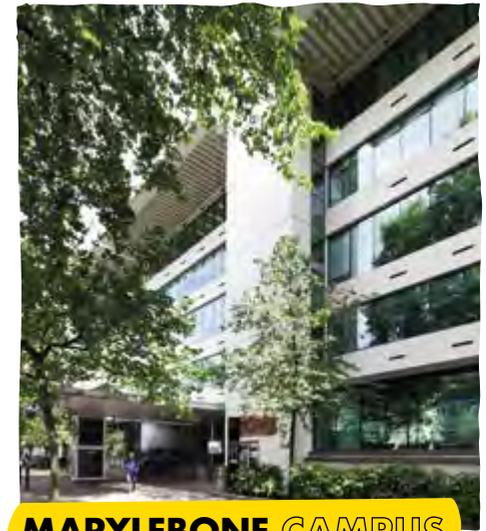

Our historic **Regent Street Cinema** – the birthplace of British cinema in 1896 – is located within our University headquarters at 309 Regent Street. Screenings include everything from film classics and blockbusters to arthouse and international films.

LITTLE TITCHFIELD STREET

- Little Titchfield Street, part of our Regent Campus, is home to Westminster Law School

MARYLEBONE CAMPUS

- Within walking distance of both Regent's Park and Marylebone High Street
- Subjects taught at the campus include Accounting and Finance, Architecture, Business and Management, Construction, Surveying and Real Estate, Economics, Marketing and Tourism

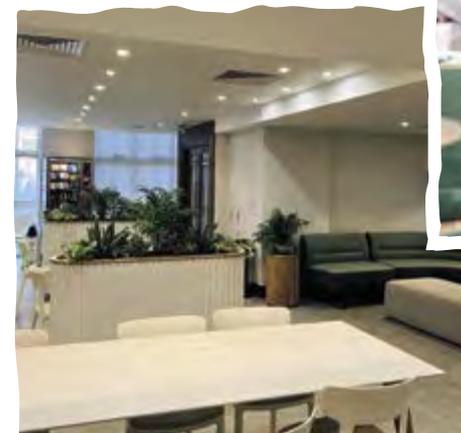

HARROW CAMPUS

- Northwick Park tube station is right at the campus entrance
- Subjects taught at the campus include Art and Design, Fashion, Film, Games Art, Music, Photography, and Digital Media

LIFE ON CAMPUS

Our campuses are where you come to learn, but they're also somewhere for you to grab a hot drink, catch up on some work and socialise with your friends. Being a Westminster student gives you unlimited access to all our campuses.

We have a wide variety of social spaces for you to enjoy across all our campuses, from cafes and cosy booths, to games areas and larger spaces for a range of events. Westminster is somewhere you can belong and a home away from home.

Head over to [tiktok.com/@uniwestminster](https://www.tiktok.com/@uniwestminster) to discover more about life on campus.

LONDON IS YOUR CAMPUS

London is the best student city in the world (that's the 2024 QS World University rankings talking, not just us), and our location means there are so many more adventures and discoveries for you to make outside of the classroom. Few cities can compete with London for its vibrant culture, limitless opportunities and world-renowned entertainment, so we've asked our students to tell us about their favourite parts of living and studying here.

I come from a small town in the North East of England and grew up surrounded by a small community of people. The prospect of moving to London alone was daunting, but also exciting due to the amount of diversity and opportunities the city has to offer. My worries soon disappeared as I began exploring the city and discovering some of the hidden gems that London has to offer.

London has allowed me to network, expand my social circles and cultivate my passions for film and photography due to the amount of opportunities available. I love living in London and will always cherish the time I spend here.

Iga Kubik,
second-year student

I study at Harrow Campus and live in student accommodation in Wembley, which is only two tube stops away. Getting to and from campus is easy, as I live so close to the tube station. Living in London has been an amazing experience as the city has so much to offer. I enjoy the contemporary urban lifestyle and the various street food markets around the city.

There are also several cafes dotted around Wembley Park if you fancy catching up with friends over coffee. The London Designer Outlet also boasts a great selection of high-end retailers and chain restaurants, as well as a Cineworld cinema on the top floor! Not to forget Wembley Stadium itself, which sits at the heart of the area and is impressively huge (no better chance for a photo opportunity).

Shadman Kabir,
second-year student

STUDENTS' UNION

MAXIMISE YOUR STUDENT EXPERIENCE

The Students' Union is your union, run for students by students. It looks after your needs and fights for your rights, completely independent of the University. You can get involved right from the moment you start at Westminster as you automatically become a member of the SU when you join the University.

Our sports and society groups are at the heart of the community at Westminster, and the list of teams and clubs you can join is almost endless. Whether you're looking to make new friends, compete in different sporting activities, explore the marvellous city of London, or even to expand your network, do it with student groups. Join one of our sports teams and become a Dragon or get involved in any of the societies – from debating and anime to the Feminist Law Society.

Joining a student group is accessible to all students. With no club fees or joining fees, you can broaden your student experience by participating in a diverse range of student-led groups. If you can't find a society that caters for your particular passion, no problem! UWSU can help you to start your own sports or society group and broaden the experience for all students at Westminster.

We offer **free sports and societies** to ensure accessible opportunities for all students.

EMPLOYMENT AND VOLUNTEERING

That's not all the SU has to offer – there's a wide range of volunteering and employment opportunities that mean you can get more out of your university experience than just a degree. Develop your skills and experience with a student staff role such as Digital Crew, which gives you the opportunity to become a social media content creator, or an academic rep, which enables you to improve your leadership skills and also change how your course is run. As we have social spaces, cafes and shops across all sites, the SU hires students as venue staff so you can earn some extra cash by working at fun events, hosted by UWSU.

SPORTS AND LEISURE

Whether you're planning to join a sports team, are a regular gym-goer or just like to try a new sport every now and then, we have plenty of sports, leisure facilities and activities available for students. Our Students' Union has a range of clubs you can join, from netball and volleyball to Muay Thai and climbing. If you prefer something more casual, there's also Dragons Active, which is a programme of social sport, physical activities and fitness classes open to students of all abilities. All sports and leisure facilities are free for University of Westminster students!

The Den

We're excited to introduce you to The Den, a brand new sports hall on our Harrow Campus. Opened in 2024 and home to the University of Westminster Dragons, the building contains a 180-seater sports hall, hosting sports such as basketball, volleyball and netball. Alongside that, it hosts a strength and conditioning gym with the latest fitness and gym equipment.

Harrow Sports Hall

The Harrow Sports Hall offers a compact gym and can host a range of sports such as badminton and five-a-side football.

Regent Street Gym

The Regent Street Gym offers cardiovascular equipment, free weights, resistance equipment, lifting platforms and a functional area. We also have a class timetable that includes yoga, Pilates, pump, circuit and much more! Participation in these is included as part of your free membership.

Chiswick Sports Ground

Chiswick is the home ground of the Westminster Dragons football, hockey and rugby teams. With world-class synthetic turf pitches, tennis courts and natural pitches spread across two sites, this makes it an excellent home location for the teams. The site also has changing-room facilities and bar areas for all your post-match socialising.

BECOME A MEMBER

It's easy to become a member by simply visiting any one of the sports facilities to fill out a membership form.

Please see the Sport and Leisure webpage for prices and more information:
westminster.ac.uk/sport-and-leisure

**THE
SUPPORT
I HAVE
RECEIVED
HAS BEEN
INCREDIBLE**

As a woman in a male-dominated industry, I'm passionate about encouraging more women to join the computer science and engineering sector. Diversity is incredibly important and the industry offers so many creative career paths and growth opportunities.

As a Business Information Systems (BIS) student, I've gained valuable knowledge and skills studying modules that include BIS Design and Architecture, Requirements Modelling and Information Technology Security. I've also developed my coding skills to a high level. The variety of assignments will help me to stand out in a competitive market and find a job after graduation.

The support I have received while studying at the University of Westminster has been incredible. I will always be grateful to my personal tutor who helped me to develop my time management skills and career aspirations.

I feel proud to be part of the Westminster community!

Justina Aikeremiokha,
third-year student

IT ALL STARTS IN LONDON

A MELTING POT OF OPPORTUNITY AND POTENTIAL

There are around 1.1 million businesses in London from leading national and multinational companies to the thousands of start-ups – think Deliveroo and Monzo to name a few. It's a city founded on ambition, where the buildings are tall and the hopes are higher.

The most connected city in Europe, London is the centre for many sectors – business, finance, technology, law, politics, media, design, cultural, scientific, creative and more – and our location enables our students to benefit from this through placement and internship opportunities and visiting lectures from leading professionals.

You will have an opportunity to develop and grow and we will support you every step of the way with opportunities such as international travel and our employability awards helping to give you an edge when you complete your studies.

The limitless opportunities make it the best place to meet potential employers and gain valuable experience that will kick-start your career. Make the most of your time in this vibrant city, and invest in your future career.

MORE THAN A DEGREE

We promote real-world experience that will get you the skills, connections and knowledge to forge the career you want by preparing you for the future. You may have a clear career path in mind, or might be uncertain about where your journey will take you. We will help you explore your opportunities and discover where you want to go, face your fears and support you every step of the way.

Degrees for all

Westminster is a place for firsts. It was London's first polytechnic in 1838 and now over 19,000 students from more than 160 countries study here. That's because we thrive on delivering transformational education to people from all backgrounds.

We know that degrees are a significant investment for you and we're determined to make sure that you reap the rewards by putting an emphasis on real-world experience, where you can build connections and finish your degree with a job.

Personal tutoring

We provide you with a personal tutor who will get to know you as an individual and support you throughout your degree. Our Careers and Employability Service works with a large, ever-growing network of external organisations providing job opportunities, work-based learning options, events and professional insights. They can help you figure out what type of career would suit you and navigate the waters of the working world.

Your opportunities

- Gain professional skills with our network of recruiters and organisations

- Volunteer locally and globally with the help of the University's Careers and Employability Service
- Connect with professionals and get mentored by those in the know
- Attend our skills development workshops
- Explore our international opportunities and expand your personal and academic horizons by taking part in one of over 90 exchange partnerships across over 20 countries
- Learn a foreign language while you study through our Polylang programme
- Gain invaluable experience through work-based learning opportunities.

2nd

Westminster ranks 2nd for **social mobility** among English universities for the proportion of students from lower income families who go on to have well-paid careers.

Source: Institute of Fiscal Studies, 'Which university degrees are best for intergenerational mobility', November 2021

WE'RE ENCOURAGED TO BE OURSELVES

Westminster is a place that feels like a community and where we're encouraged to be ourselves. We're constantly pushed to develop our own unique skillset and think outside the box. My advice for anyone wanting to study at Westminster is to be open to every opportunity that comes your way, work hard, make lots of memories and, most importantly, have fun.

Momina Nehmat,
second-year student

I come from a low-income and minority community where it's hard for young black males to really know the opportunities that university can offer. I had a troubled background, and it took my father losing his life to the COVID-19 virus for me to realise that I needed change. Being part of Westminster has helped me to find my community and sense of belonging, and it's amazing studying in a place where diversity is celebrated.

Ebenezer Antwi-Brefo,
third-year student

IT'S AMAZING STUDYING WHERE DIVERSITY IS CELEBRATED

HELPING YOU GET THE JOB YOU WANT

Westminster Employability Award

Employers want graduates with more than a degree. Boost your CV with the Westminster Employability Award, which formally recognises extra-curricular activities such as a part-time job or internship.

More information is available at:
westminster.ac.uk/employability-award

Student ambassador scheme

Earn money while gaining leadership and communication skills by advising students about courses, societies, sports and university life.

Engage

Our exclusive online platform provides crucial information to help you with your career, including job listings, careers fairs, networking events and example CVs.

Talent Bank

The Talent Bank gives you the opportunity to apply for paid temporary and part-time work across all campuses and various departments within the University of Westminster.

Mentoring Scheme

Get matched with a mentor working in the industry you want to work in after graduation and receive their advice and support to reach your personal and professional goals.

Westminster offers so much in terms of achieving my career goals. The exclusive career events and the Westminster Employability Award are very insightful and have helped me to gain vital skills!

Zoha Ahmad
Accounting BSc Honours

Broaden your skills by learning a new language

Polylang is the University of Westminster's language programme. Developing one of your current languages or learning a new one will make you more employable, teach you about other cultures and enhance your general communication skills... and you can do it as part of or alongside your degree.

More than one thousand students choose to take part in the programme every year.

We offer tuition at a range of levels in the following languages:

- Arabic
- Chinese
- French
- German
- Italian
- Japanese
- Russian
- Spanish

Additionally, we offer specialist skills modules for heritage speakers of Arabic, French and Spanish.

As an undergraduate student, studying a Polylang module might even count towards your degree. If your course structure doesn't allow you to choose Polylang, you may still be able to take a language module for an additional fee.

For more information, go to:
westminster.ac.uk/polylang

Westminster Enterprise Network

Westminster Enterprise Network (WeNetwork) is a community of Westminster students and recent graduates with an interest in enterprise, freelancing and innovation. Take part in award-winning programmes and workshops, dedicated to helping you plan your own journey; whether it's becoming a freelancer, starting your own business, or exploring a side hustle.

Courses with a placement year

We put an emphasis on international and real-world experience, which is why many of our courses offer an optional placement year. Courses are then four years long with the opportunity to study abroad or work in industry for one year.

EVERY JOURNEY IS DIFFERENT

THERE ARE MANY DIFFERENT WAYS TO GET A DEGREE

At Westminster we welcome applications from all candidates, whether you've recently completed A Levels/BTEC or if you don't have any formal qualifications at all – as long as you can prove relevant knowledge and skills, you may still be eligible for a place on a course. Once you do, you can shape your degree to suit you, with part-time study or the option to add a placement year. **MAKE IT YOURS.**

RECENT A LEVELS/ BTEC/ACCESS COURSE

If you have recently completed or are in the process of completing your A Levels/ BTEC or access course and/or equivalent level qualifications, apply for your place via UCAS.

PREVIOUS STUDY

If you've already studied part of a degree course elsewhere or have relevant work experience, you may be able to join a degree course part-way through (we call this advanced entry). This includes anything from a Foundation Certificate, CertHE or DipHE all the way to a Masters degree. If you'd like to request entry part-way through a course, make sure you state this clearly on your UCAS application form.

[westminster.ac.uk/
prior-learning](http://westminster.ac.uk/prior-learning)

PREVIOUS WORK EXPERIENCE

You may be able to earn credits towards courses if you have previous experience which is not formally attested through any educational or professional certificate. It is important to note that it is the learning derived from the experience that is accredited, rather than the experience itself.

[westminster.ac.uk/
prior-learning](http://westminster.ac.uk/prior-learning)

FOUNDATION COURSES

We offer Foundation courses as an alternative route on to some of our undergraduate courses. They are a way to gain a full Honours degree if you do not meet the entry requirements or are returning to education after a break. They're offered as an integrated year of study and prepare you for learning at undergraduate level. After successful completion of the Foundation year, you will progress on to Year 1 of your full degree course.

[westminster.ac.uk/
foundation](http://westminster.ac.uk/foundation)

DEGREE APPRENTICESHIPS

A degree apprenticeship is an alternative route to achieving a university degree qualification while gaining valuable work experience and without being in full-time education. There are no tuition fees, as these are met by your employer and the government, so no need for a student loan! We currently offer a range of degree apprenticeships, some of which lead to a professionally accredited qualification. We work and support employers in a number of sectors including construction, real estate, planning and healthcare. Apprenticeship students must be sponsored by an employer.

[westminster.ac.uk/
apprenticeships](http://westminster.ac.uk/apprenticeships)

STUDY FLEXIBLY

Many of our students are able to study part-time, either by taking degrees, short courses or working to gain professional accreditation. Achieving a degree part-time takes five years on average. Apply directly to the University via our website for a part-time course.

INTERNATIONAL EXPERIENCE

EXPLORE THE WORLD WHILE GETTING YOUR DEGREE

Westminster seeks to offer a truly global education to all of our students should they wish. Do you want to see the world, take in a new culture or develop your language skills? We offer a range of international experience options including:

- student exchange – study abroad for a term, a year or a summer, to learn in a different education system and expand your horizons. We have more than 90 exchange partners in over 20 different countries
- work abroad – complete a semester or full-year international work placement and experience living and working in another country
- international internships, summer schools and volunteering
- Westminster Working Cultures: funded opportunities to experience working cultures in major cities in the UK and overseas
- academic field trips.

Our overseas opportunities come with the chance to apply for funding including via the Turing Scheme and our in-house Global Experience Bursaries. We also have teams in place to support you through the process. Independent research shows that students from all backgrounds who engage in overseas mobility during their studies are more likely to achieve a higher degree classification and be in a better job with a higher starting salary than those who don't go abroad.

For more information visit:
westminster.ac.uk/working-and-studying-abroad

Please note that some opportunities are dependent on the course you are studying.

BRING YOUR LEARNING TO LIFE

We place a strong emphasis on practical learning, making sure you can access and use industry-standard facilities to put your learning into practice. We are continually investing and developing our facilities - over £65m has been invested across the University's campuses in recent years to ensure that our technology is cutting edge and you get the best from your time here. Here's a taste of what to expect...

Libraries and student centres

We provide a variety of study space options across our three library sites. Our specialist staff work with academic colleagues to develop our library collections to meet your study and research needs. We also provide free e-text books to students on taught modules.

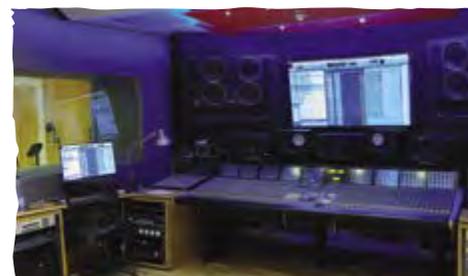

Our Student Centres, located in each library, provide valuable information and guidance about a diverse range of services and support, making a real difference to your student life and wellbeing at Westminster.

E: studentcentre@westminster.ac.uk

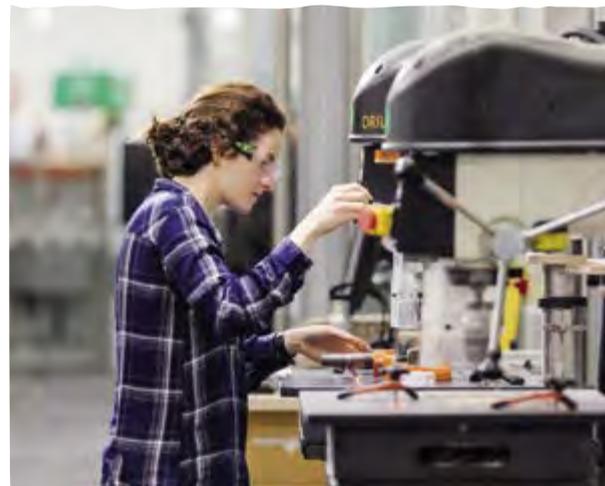

Bloomberg Financial Markets Suites

We are also one of the few universities in the UK to offer access to Bloomberg Financial Markets Suites.

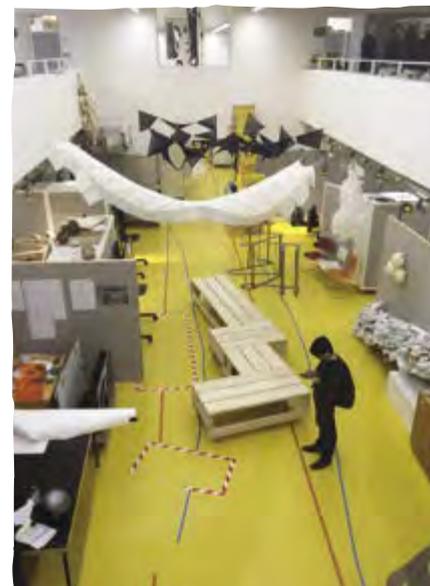

Studios

Our Harrow Campus is home to purpose-built art, design, photography, multi-camera film and TV studios, and 13 world-class audio recording studios.

The Fabrication Lab

Our digital Fabrication Laboratory offers a range of 3D printers and laser cutters, and we have invested in virtual reality kit too.

Dedicated architecture studios

Our dedicated architecture studios are equipped with state-of-the-art facilities and the latest equipment and software after a £5.2m refurbishment.

Laboratories

We offer state-of-the-art scientific laboratories. The psychology department has recently been revamped including £2.2m spent on award-winning laboratory spaces.

Get hands-on experience in our facilities including wet laboratories, clinic, patient simulator, cell production rooms and instrumentation suite.

Archives

The University has its own archival collections, including the Westminster Menswear Archive. Our Records and Archives team will support you in using these and the many other archives available in the London area.

STUDENT ACCOMMODATION

HOME SWEET HOME

Living away from home for the first time can be daunting, but living with other students, close to university, will help you feel right at home. Common rooms and shared kitchens make living in halls a sociable experience that's about more than having a place to rest your head at night.

You can apply for a place at Harrow Hall, Olympic Way or other halls provided by our partners.

Harrow Hall

For students who are predominantly based at our Harrow Campus – the complex consists of self-contained units arranged in small, purpose-built, low-rise blocks, all surrounded by green space.

Olympic Way

Olympic Way is a five-minute walk away from Wembley Park tube station and a short tube ride away from central London. It comes with multiple areas for quiet study and a large TV area with sofas and comfy chairs. The outdoor terrace offers the perfect place to watch the sunset on the London skyline, and the pool and ping pong tables are great for relaxing after a long day.

Alternatives

Westminster works in partnership with several high-quality private hall providers who offer accommodation across London, so there are plenty of options if you wish to live closer to our West End campuses. There are also private house-share opportunities throughout the city, and our Student Accommodation Team can help you to find suitable properties.

For more information go to:
[westminster.ac.uk/accommodation](https://www.westminster.ac.uk/accommodation)

THE WESTMINSTER WORLDWIDE WELCOME

FEEL WELCOME, NO MATTER WHERE YOU'RE FROM

Whether you've lived in London your whole life, are moving from another part of the country or are an international student coming to study in the UK, we want you to feel welcomed and supported even before you arrive. Westminster has one of the most diverse and international student bodies of any university. We speak over 150 different languages and we are experienced in giving students the help and support they need to feel welcomed to the buzzing capital and to life at Westminster.

New to the UK

Moving to another country can be daunting. We know that when you first arrive in the UK you may be unfamiliar with aspects of life and study.

A wide-ranging programme of events will introduce new international students to living and studying in the UK. It gives you the chance to meet fellow new students and Westminster staff, find your way around the University and London, learn about our facilities and services, and talk to our current international students.

Support for international students

You can sign up for a wide range of additional courses to support you during your studies, including training and study skills, and Academic English.

We have a pre-sessional English programme and partner with Kaplan and others to provide International Foundation courses if you require further preparation before beginning your studies at Westminster.

For more information visit westminster.ac.uk/international

**I'VE
ABSOLUTELY
LOVED MY
EXPERIENCE**

I feel South-East Asians are underrepresented within the film industry, and because of this, I've had to work harder to seek out various opportunities. Westminster has helped me move closer to making my dreams a reality through a scholarship. I'm also part of a creative community and everyone is really supportive. I've absolutely loved my experience so far!

Shadman Kabir,
second-year student

**WESTMINSTER
HAS ALLOWED ME
TO PURSUE MY
PASSION**

Being a slow learner and dealing with financial difficulties throughout my schooling experience has taught me the importance of being determined. Despite all the hardships, I managed to obtain the grades required to attend Westminster as a first-generation scholar, and receive financial support from the University in the form of a scholarship. I'm forever grateful as Westminster has allowed me to pursue my passion in higher education.

Nabeeha Noor,
second-year student

WESTMINSTER AND YOU

WELLBEING AND SUPPORT

While we hope you'll thrive during your time at Westminster, we know that sometimes life gets in the way. That's why we have an incredible support network that can help you when you need it most. Be it counselling, financial advice or help with a disability.

Learning skills

Our team can support you in developing academic skills such as essay writing or giving presentations through one-to-one sessions and skills workshops. We also offer our students access to free courses in Microsoft Office and Adobe applications.

Disability learning support

If you have a Specific Learning Difficulty (such as dyslexia or dyspraxia), long-term health condition, mental health condition or any other disability, we can provide support and adjustments.

Student advice

We offer practical information and professional advice on a range of issues including student finance entitlement, welfare benefits and money management. We provide immigration and visa advice to international students including EU/EEA and Swiss nationals, and advice on other general issues such as working in the UK. We offer additional support to students who have been in care and students who are estranged from their family.

Counselling and mental health advice

Our diverse team of counsellors and mental health advisers are experienced in supporting students from different backgrounds and cultures.

The team is happy to provide confidential support with anything that is bothering you, including study difficulties, relationship problems, anxiety or depression, mental health challenges or difficult life events. We understand that sometimes it may be hard to ask for help, but we would encourage you to contact us if you are experiencing difficulties.

Student wellbeing

We aim to support you during your studies to function well, engage and enjoy your personal and academic journey. If you are finding

that personal matters are affecting your wellbeing and would like to talk to someone, our Wellbeing Adviser Team is here to support you. They can provide confidential advice and support on a range of topics which includes mental health, homelessness and domestic violence. They can also provide adjustments and/or support if you are a care-leaver, estranged or have caring responsibilities.

Our Wellbeing Advisers will listen to you and can work with you to explore what would be most useful to you.

Faith and spirituality

The Faith and Spirituality team are here to encourage all students and colleagues to explore their sense of spiritual wellbeing as part of an authentic learning experience.

Careers and employment

Our Careers and Employability Service can help you throughout your studies and for up to three years after graduation. We can also support you to find part-time work on campus, work placements, internships and volunteering opportunities, and to network with employers.

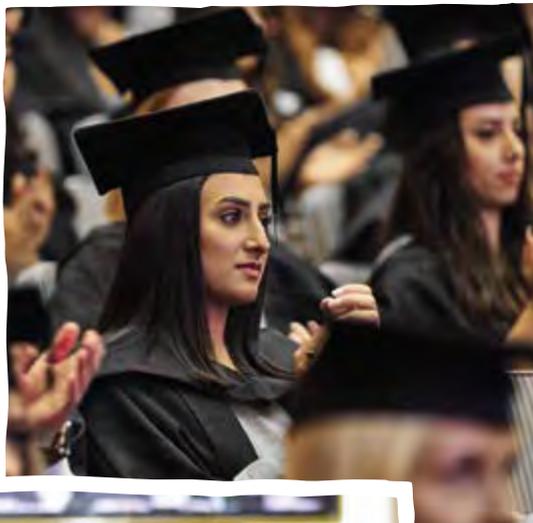

We are ranked
No.1 in the UK for
Work-Based Learning.

GRADUATE TO JOIN OUR GLOBAL NETWORK

It may seem far away now, but one of the highlights of completing your time at Westminster is celebrating your achievements at your graduation ceremony. Your Westminster journey doesn't end there; once you graduate, you become part of our global alumni network along with other former students.

Westminster unites people

Your connections and friendships will make a significant impact on your time at Westminster and after it. Benefit from excellent industry links and join our diverse, global network of over 200,000 alumni from 180 countries.

Our connections

Listing an undergraduate qualification from Westminster on your CV is just the beginning. You'll also be able to develop professional skills and experience to help you stand out from the crowd.

Our world-class location means you can network and work with global and national companies - many of their headquarters are in London.

Recent opportunities for our graduates have included:

- Amazon
- BBC
- Deloitte
- Harrods
- HSBC
- IIT
- Microsoft
- NHS
- Pearson
- PwC
- Transport for London

Alumni benefits

As an alumnus, you will be entitled to a number of benefits and services including:

- dedicated careers support for up to three years after graduation
- discounts on further study, including Masters courses
- invitations to networking events in the UK and overseas
- access to an exclusive online networking platform
- mentoring from professionals working in your area
- a free Alumni Card providing access to the University buildings, and campus libraries
- discounted gym and sports centre membership.

To find out more visit:
westminster.ac.uk/alumni

VISIT US AT OUR NEXT OPEN DAY

Open days are the perfect opportunity to find out everything you need to know about studying at the University of Westminster. Visiting us will allow you to:

- chat with our academic staff and attend subject sessions to learn more about the courses we offer
- find out more about our excellent facilities.

Our open days are interactive events, during which staff will also be on hand throughout the day to answer any questions you may have about:

- student finance
- application process
- careers and employability
- accommodation
- study/work abroad
- disability learning support
- wellbeing.

Please check our website for details of our upcoming open days and to book your place:

[westminster.ac.uk/open-days](https://www.westminster.ac.uk/open-days)

OUR COURSES

The next few pages are a snapshot of our courses - but that's not the whole story. More details on course content, opportunities and the latest entry requirements can be found on our website: [westminster.ac.uk/courses](https://www.westminster.ac.uk/courses)

The key below will help you identify opportunities that are embedded in your course, such as work placements and study abroad opportunities. However, all students at Westminster do have access to international opportunities and placements subject to course leader approval.

ACCOUNTING AND FINANCE

Westminster is an innovative and leading provider of financial education in the centre of London, a financial capital of the world for educating future talent and shaping the global economy. In a global digital world, we have adopted an ambitious and progressive approach to add expert digital finance and FinTech skills to a number of our courses where a large skills gap has now emerged. We aim to prepare you for the digital and technological changes that face the financial services sector.

Our teaching is designed to future-proof our graduates for successful global careers in finance, analytics and accounting. Our practical and relevant courses have strong affiliations to professional bodies to give you a sound understanding of core financial, accounting and business concepts as they are applied today. You'll have access to the Bloomberg platform, one of the leading financial markets suites, to make informed decisions about financial and business problems as you would in industry. The experience you gain will open up opportunities in areas such as financial and management accounting, commercial and investment banking, financial risk management, wealth management and FinTech (including blockchain, artificial intelligence and machine learning applications).

ARCHITECTURE, INTERIORS AND URBAN DESIGN

Westminster is one of the largest providers of architecture, interiors and urban design education in the country.

At the heart of our courses are our vibrant design studios, where you will experience hands-on teaching in small groups from current practitioners. These studios will help develop your imaginative design thinking and your ability to work under both intuitive and practical conditions, and they reflect London's dynamic architecture and urban planning scene. You'll benefit from your own dedicated, modern studio space to work in, and use our cutting-edge Fabrication Laboratory including advanced digital-making processes such as 3D printing, CNC cutting and routing and milling, as well as robot fabrication.

By choosing Westminster, you'll benefit from our strong connections with practice and professional bodies including the Royal Institute of British Architects (RIBA), Architects Registration Board (ARB) and the Royal Town Planning Institute (RTPI), The Chartered Institute of Building (CIOB) and Chartered Institute of Architectural Technologists (CIAT) so your degree will be internationally recognised wherever you go.

ART AND DESIGN

At Westminster, we prepare you not just to enter the creative industries but to shape and lead them. In a world where creativity counts and imagination is the key to success, you can be inspired by the creative opportunities and people around you. The Westminster School of Arts and Westminster School of Media and Communications include film-makers, photographers, musicians, fashionistas, artists, designers, illustrators, animators, games artists and creative entrepreneurs. It is a creative hothouse of international quality and inclusivity.

Our courses reflect the fast-changing opportunities in digital arts, design and media. By choosing Westminster, you will have the opportunity to work in professional dedicated studios, supporting both traditional and high-specification digital technologies central to a wider range of art and design practices, knowledge and understanding.

BIOLOGICAL AND BIOMEDICAL SCIENCES

At Westminster, you will develop practical and professional skills under the guidance of staff who have an international reputation for tackling key challenges in biological, health and medical sciences.

Our courses are informed by healthcare and industry employers: teaching and assessment focus on applying skills as you would in your future career – whether in practice or in research – while placement options on selected courses allow you to further build your skills and professional networks. We are proud of our degree courses in Biochemistry, Biological Science and Biomedical Science, Pharmacology and Physiology, and Medical Sciences and our distinctive degree pathways; all of which are accredited with the Royal Society of Biology. Our Medical Sciences BSc provides an innovative and alternative route to a medical degree and career.

Choosing Westminster, you will enjoy being part of our vibrant research culture, and with more than £30m invested in equipment, state-of-the-art learning spaces and laboratories, you will benefit from our cutting-edge and innovative teaching and facilities. Our courses will develop you into a workplace- and research-ready scientist with the employability skills, career ambitions and commercial inspiration that will be needed to meet the global healthcare and environmental challenges that face us in the coming decades.

CONSTRUCTION, SURVEYING AND REAL ESTATE

Our Construction, Surveying and Real Estate courses hold professional recognition or accreditation, and we take pride in our strong industry connections with numerous construction companies and key professional organisations such as RICS, CIOB and CABE.

You'll study the design, construction and operation of organisations, buildings and places within which people and communities live. As well as engaging with live industry projects you'll build your knowledge and skills through site visits, field trips and practical workshops using specialist equipment and the latest technologies to bring learning to life. We are in the centre of one of the world's greatest cities and use this vibrant, multicultural setting to explore innovative solutions to the problems facing our world.

We're focused on creating graduates who are ready for the world of work. That's why practical experience is at the core of your learning. You can add a year-long industry placement to your course and benefit from gaining real and relevant hands-on experience. Based in the heart of the capital, you'll have endless opportunities to network and get to grips with what industry is really like.

CRIMINOLOGY AND SOCIOLOGY

Criminology and sociology draw on a wide range of human and social science disciplines to explore the key issues of our time – race, gender, immigration, crime, social injustice and youth unemployment, for example – and help you to answer critical questions about society in the UK and beyond.

Our friendly and supportive teaching, assessment methods and wide range of specialist optional modules are designed to bring out your strengths and hone your research, analytical and communication skills. We take London both as an inspiration and a learning environment – whether it's the workings of the BBC or the Old Bailey, patterns of migration to the East End or real-life case studies, we give you the tools to do your own practical research and exploration in one of the most exciting cities in the world. We also make the most of our outstanding professional links and location to help you gain valuable work experiences. All of which means you have a competitive advantage in launching your career once you graduate.

Explore the most important issues in the world today, from climate change and resource depletion to migration and social inequality. Examine how historical forces laid foundations for contemporary issues and crises. Be empowered to advocate for social change and prepare for a career in areas including campaigning, education and policymaking.

DATA SCIENCE AND INFORMATICS

The extensive use of social media networks and the Internet of Things is generating a massive amount of data. Our courses will give you the analytical, technical and data visualisation skills to convert big data sets into valuable insights that support effective decision making. You will be guided through the study of maths, statistics, computing and the business environment to understand the basic principles and technologies required in the exciting new field of data science and analytics.

As the business environment becomes more driven by quality of information, most companies see the need to apply business information systems, in order to remain competitive. Business information systems are the interface of business and technology, designed to shape, drive and responsibly take control of our digital economy and digital society. As a graduate with an emphasis on seeking the business opportunities offered by information technology, you will understand the strategic importance and role of information technology in successfully creating, operating and managing modern digital businesses and enterprises.

ECONOMICS

How is the global community tackling poverty? How can companies embrace the opportunities of a decarbonised world? Our degrees in economics and global trade and business enable you to explore these and more questions, crises and controversies.

Our Economics BSc and Financial Economics BSc degrees share a common first year providing flexibility to change between the two courses at the start of your second year. There's an opportunity to gain Bloomberg professional certification and attend training with the London Stock Exchange Group. Our Economics and Management BA is a great option for students to study economics and gain a solid understanding of people management, operations, logistics, marketing and business ethics, with opportunities to study abroad or undertake a work placement.

As international trade continues as a top economic priority for governments, organisations and businesses alike, our 'work-ready' Global Trade and Business BA top-up explores the opportunities and challenges this presents. This one-year course, equivalent to the final year of a Bachelors degree, is designed for students who have previously studied business and management to Level 5.

ENGLISH AND CREATIVE WRITING

With over one billion English speakers worldwide, the study of the language enables you to make connections and unlock cultures around the globe. Choose to study English Language, Literature, Linguistics or Creative Writing in their social, cultural and historical contexts, or combine your study with other subjects according to your interests. You will develop key transferable skills including effective communication, collaboration, critical thinking and research, preparing you for a variety of careers. You will be taught in small seminar groups and tutorials to give you individual support, and the unrivalled library, cultural and archive resources of London are an integral part of each course.

At Westminster we place particular emphasis on employability. You will have the opportunity to complete a work placement or internship, or to study abroad at a partner institution, allowing you to hone your skills and build your professional network. Our graduates go on to careers in the creative industries, publishing, journalism, teaching and graduate roles in many other sectors.

FASHION

The University of Westminster has a world-class reputation for producing both highly creative fashion designers and commercially minded fashion business professionals. Design graduates include London Fashion Week designers Robyn Lynch, Roberta Einer, Claire Barrow, Liam Hodges and Ashley Williams, as well as Stuart Vevers, Creative Director of Coach, and Christopher Bailey CBE, former Chief Creative Officer of Burberry. Fashion business and marketing graduates can now be seen in senior executive roles in many of the world's leading fashion and retail marketing businesses.

Based at our Harrow Campus, you will work alongside students from film, photography, music and journalism, in a unique hothouse of creative opportunity. All our Fashion courses have an exceptional reputation for being aligned with the international fashion industry, giving you outstanding opportunities to engage with the industry throughout your course. We specialise in enabling you to become either a highly original and individual creative designer or an industry savvy professional, capable of working at the highest levels of the international fashion industry.

HISTORY

In our History courses, you will explore the driving forces which have helped to shape the modern world, including revolution, nationalism, democracy and imperialism. Your studies will have a focus on the many different social, political and cultural histories of Britain, with comparative study of wider global history. These stimulating courses are delivered through a varied programme of lectures, seminars, tutorials, field walks, museum visits and archive tours. You'll unearth revealing insights about the subject and be encouraged to think about the role of the historian and how the past is remembered.

London is our classroom and we will help you to appreciate the extraordinary history of this great city. You'll explore the streets of the capital, learn how to conduct your own research in London's unique archives (as well as our own), and graduate with the skills in problem solving, communication, research and critical thinking that are valued by employers. Our graduates are ready for a career in a variety of areas, including the media, business, education, the Civil Service and law – or prepared for research and further study.

LANGUAGES

Our exciting modern languages courses are designed to develop your knowledge, use and understanding of language and culture, along with the skills needed for effective communication in the global environment, making you ready to succeed in the workplace. Our courses are flexible to suit your ambitions: you can choose to combine your language study with one of a range of other subjects and you can join as a beginner as well as at higher levels.

With an emphasis on practical learning and critical thinking, the courses are delivered through a combination of seminars, tutorials, lectures, workshops, guided self-study, professional simulations and real-world experience. You will have the choice to spend a full academic year abroad at a partner institution or in a work placement. Our graduates are well equipped for employment as translators, interpreters and teachers, and in other sectors including law, marketing, journalism, NGOs, the Civil Service, international business and financial services.

LAW

With its law courts and top legal employers, London has the largest concentration of legal expertise in the world. Westminster Law School offers undergraduate, postgraduate and professional courses to assist you through your whole journey to becoming a legal professional in a supportive learning environment. Our ambition is to ensure that every person finds their voice within the law. We're a diverse, inclusive community and want every one of our students to find their path within legal knowledge and the legal profession.

Our vast range of optional modules will personalise your learning to focus on areas of law that really interest you. For example, you can specialise in entertainment and media law, commercial law, international law, human rights law, criminal law and justice, or welfare law.

We offer you the opportunity to practise in a real-world environment: you can choose to do a work placement with a law firm and could develop your legal skills at the Westminster Law School Legal Advice Clinic. Additionally, work-based learning modules are available in every year of the course to boost your employability. You will also have the chance to study abroad and the option to learn a foreign language alongside your studies.

Develop your skills at our student-led University of Westminster Legal Advice Clinic.

MARKETING

We can help you prepare for a fast-paced, creative and rewarding career in marketing or retail. Whether you want to explore our Contemporary Retail or our more marketing-focused provision in digital marketing, international marketing and strategy development or specialise in advertising, PR and management, you'll be sure to find a course that suits you.

All of our courses aim to develop your awareness of contemporary marketing practice and the interaction with the other functional areas of business. You'll walk away with the knowledge, skills and practical experience you need to pursue opportunities with national and international organisations in areas such as strategic marketing planning, consumer insights, marketing analytics, marketing communications and brand management.

Digital Marketing BA Honours

MEDIA AND COMMUNICATION

The way we communicate is changing rapidly and we want to equip you with the skills you need for a career in today's fast-moving media industries. Whether your passion lies in digital, traditional or emerging media, you will develop practical skills at the same time as studying essential theoretical frameworks to become a rounded and adaptive professional. Our course teams are made up of industry experts and internationally renowned academics from our world-leading Communication and Media Research Institute (CAMRI).

You will have access to our industry-standard newsrooms and TV and radio studios. We encourage our students to gain hands-on experience through work placements, writing for the student newspaper or getting involved with our award-winning Smoke Radio station. Recent graduates are working at the BBC, CNN, BuzzFeed, The Guardian, Kiss radio, Ogilvy & Mather, Mischief PR, the Royal College of Art and McKinsey Consulting.

MUSIC

From producers, performers and managers to songwriters, artists, entrepreneurs, DJs and thinkers, we attract some of the most talented students who go on to help shape the music industry. This future-facing innovative course supports you to build and develop skills in music production, performance and business, preparing you for a successful and sustained career in music. You will be taught by experts and industry professionals ranging from composers and performers, to promoters, audio experts, producers, lawyers and artist management specialists. The expertise of our team opens up an exciting range of networking opportunities and brings in guest lecturers from all areas of music. You will also get to record, produce and perform your own original music in our industry-standard recording studios and performance spaces.

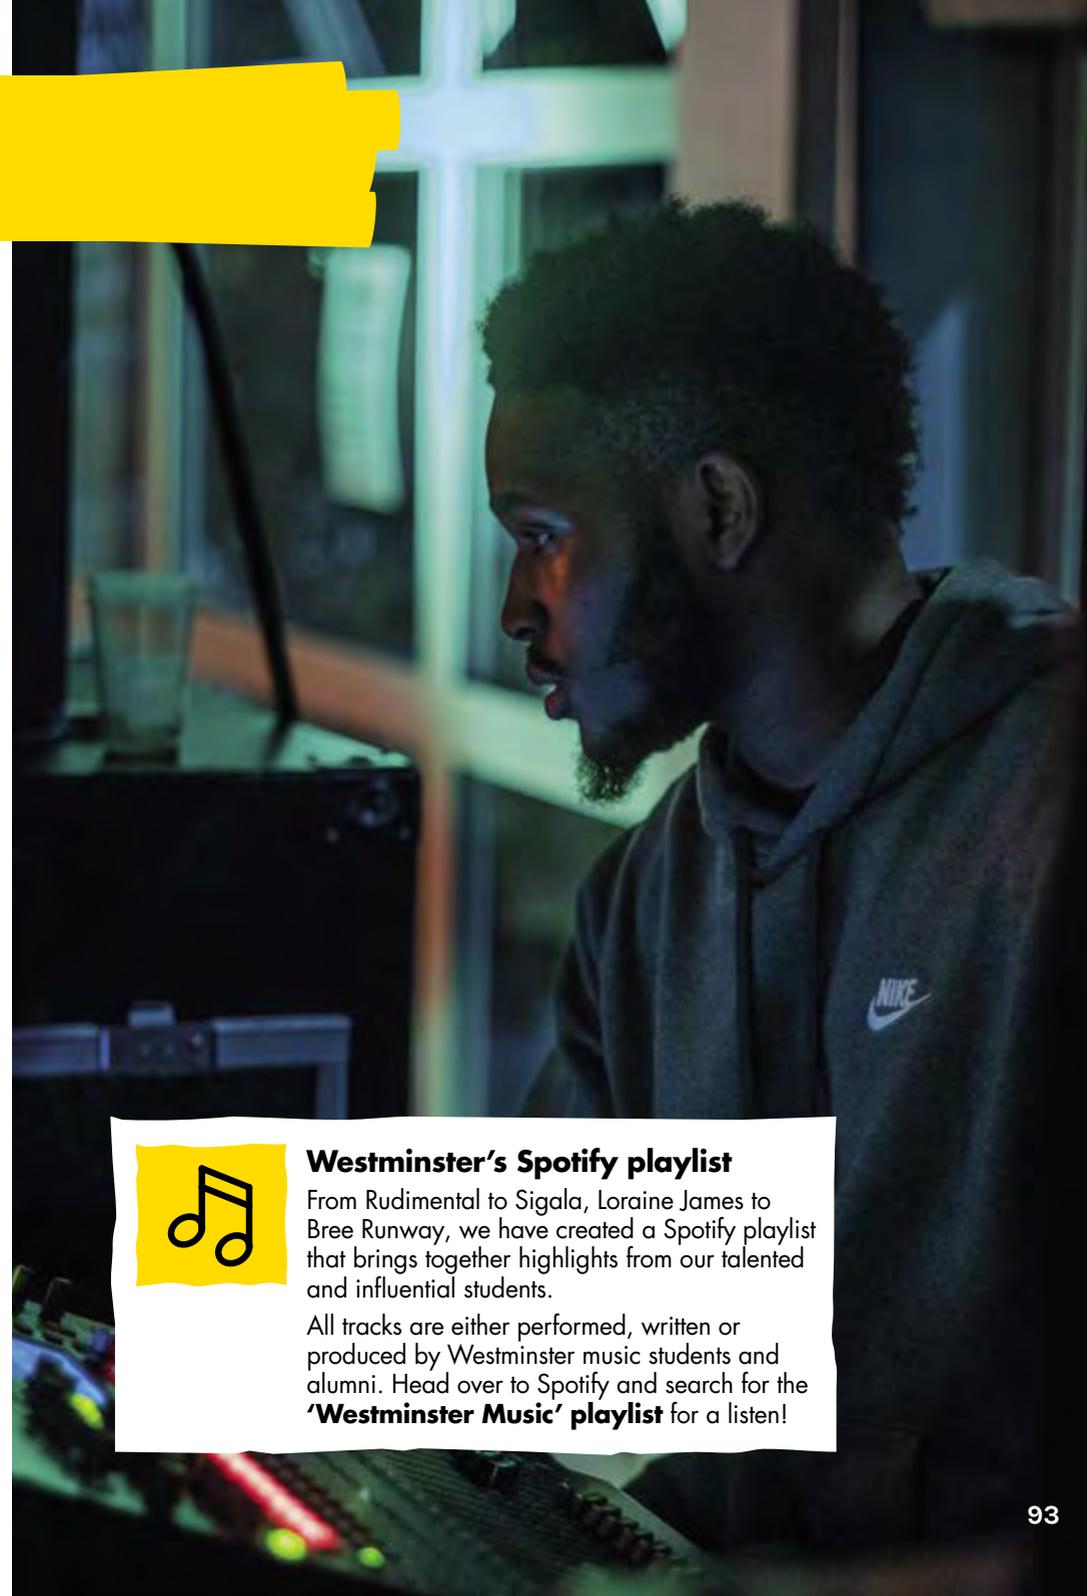

Teaching takes place at our Harrow Campus, home to the School of Arts and School of Media and Communications. Being a part of this creative hub allows you to perform weekly in our venues, collaborate and work alongside artists, directors, fashion designers, photographers and journalists, as well as our award-winning Smoke Radio station.

Westminster's Spotify playlist

From Rudimental to Sigala, Lorraine James to Bree Runway, we have created a Spotify playlist that brings together highlights from our talented and influential students.

All tracks are either performed, written or produced by Westminster music students and alumni. Head over to Spotify and search for the **'Westminster Music' playlist** for a listen!

NUTRITION AND PUBLIC HEALTH

Our dynamic courses integrate knowledge across biochemistry, psychology, public health and exercise, to present a unified view of this all-encompassing subject area and its applications. With authentic learning throughout your course, and an optional placement year, we focus on the application of your learning to ensure you are a highly employable graduate. Our Human Nutrition BSc and Human Nutrition with Foundation BSc courses are professionally accredited by the Association for Nutrition (AfN), further boosting your qualifications.

Through our courses, you will learn how to be a scientific practitioner by applying key principles of nutritional science from a cellular perspective, through to the physical responses of the human body, and changing behaviour to improve an individual's health. Courses are taught through a mixture of face-to-face and online teaching through tutorials, group activities and independent study. Westminster's lively research culture informs our teaching and is reflected in our curricula specialising in key health and nutrition areas such as local and global food security issues encountered by families, lifestyle interventions for metabolic health related diseases and the ability to change nutritional behaviour through the use of technology.

Human Nutrition BSc Honours

POLITICS AND INTERNATIONAL RELATIONS

At Westminster we are recognised internationally for our innovative teaching and research in Politics, International Relations and Development. You'll develop the ability to think critically about national and international politics, preparing you for a variety of career paths – our recent graduates have gone on to roles in the Civil Service, Parliament, NGOs, international organisations, think tanks, media and education. From conflict to democracy, you'll get to grips with current events and understand the core factors affecting them. The latest political thinking will challenge your preconceptions of identity, justice, power, political economy, diversity and ethics.

We are in the centre of one of the world's greatest cities and we use this vibrant, multicultural setting to take our students on frequent trips around London to bring theory to life. We also offer a wide range of international travel opportunities that allow you to expand your knowledge and develop a global understanding of the topics you are studying, with past trip destinations including Switzerland, Turkey, India, Taiwan and Vietnam.

PSYCHOLOGY

By choosing Psychology at Westminster, you'll be joining a vibrant community marked by research, collaboration and inclusion. You'll be based in the heart of London with all its social diversity and with access to a huge range of library, archive and cultural resources. You'll have the option of specialising in modules that cover the full breadth of psychology and offer you a unique learning experience.

We're focused on creating graduates who are ready for the world of work. That's why practical experience is at the core of our teaching. Our degrees are accredited, with an optional work placement year, giving you the opportunity to gain workplace experience in a psychology or cognitive and clinical psychology-related setting in the UK or abroad.

As well as pursuing careers as Chartered Psychologists, our graduates go on to pursue careers in counselling, psychotherapy, research, teaching, health and social care, human resources, advertising, marketing and business.

TOURISM AND EVENTS

Where better to study tourism and events than in the heart of central London, one of the most popular destinations in the world? Building on 25 years' experience of tourism and events education and industry-shaping research, our Tourism and Events Management course takes advantage of our location as well as local, national and international professional networks to prepare you for a career managing tourism experiences and events across all sectors.

You will study practical topics including destination management, event logistics and marketing for tourism and events, as well as the political and societal impacts of tourism and events with an emphasis on responsible management for a sustainable future for the tourism and events industries. We strongly believe in helping you understand how to apply your learning to the real world and your experience is central to our efforts. This is why we use our location in the centre of a metropolitan and multicultural setting, as well as our organised visits to sites such as hotels, event venues, attractions and cultural heritage locations. Our course also provides an opportunity to join residential field trips both in the UK and abroad.

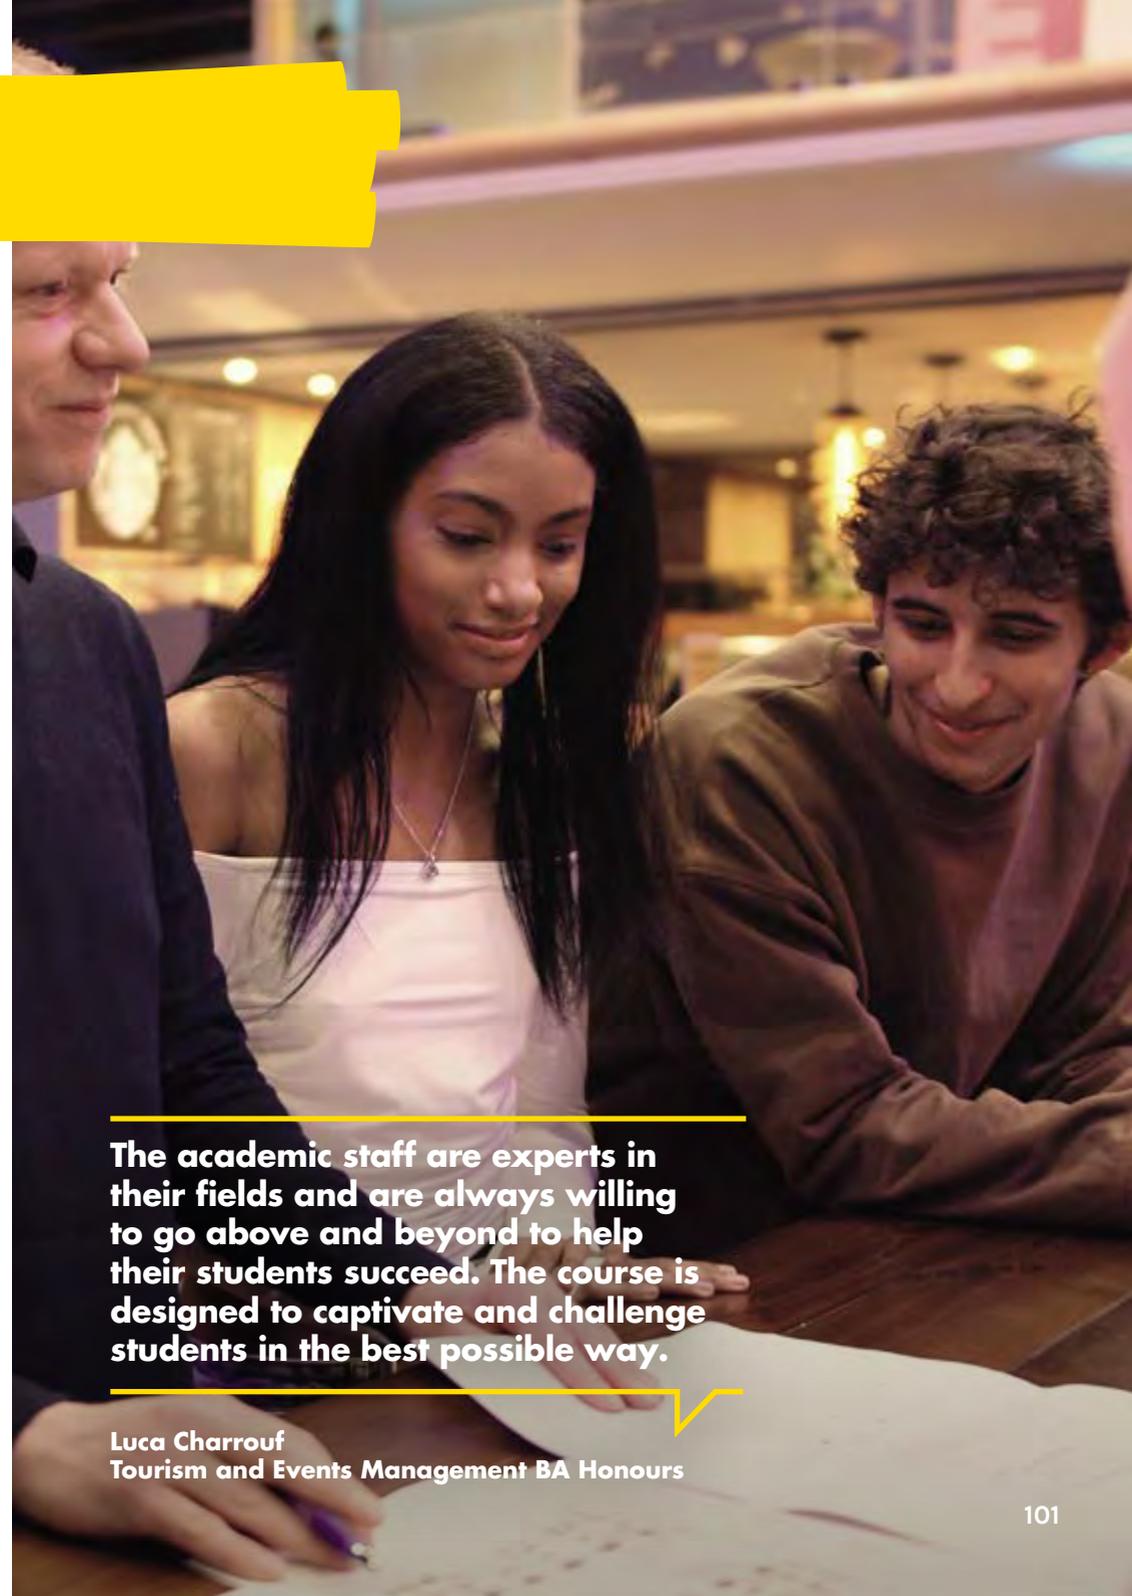

Graduates from our Tourism and Events course go on to a diverse range of roles, including event management, venue management, planning, consultancy, and a range of business, marketing and sales opportunities.

In addition to the above, our course offers an optional placement year within industry between the second and final year of study. This provides invaluable experience, knowledge and skills to prepare you for professional life after graduation.

APPRENTICESHIPS

An apprenticeship is an alternative route to achieving a university qualification while gaining valuable work experience and without being in full-time education.

Apprenticeships are ideal if you've finished school or are already working and seeking higher level training with the support of your employer. We have partnerships with multiple employers to offer a range of apprenticeships.

We offer a range of apprenticeships supporting the construction, real estate, surveying and healthcare sectors.

To be eligible, applicants must:

- be aged 18 or over
- be employed as part of an agreed apprenticeship scheme
- meet the ESFA funding eligibility criteria.

Applicants must also meet the academic entry requirements of the course. For more information on the entry requirements and application process, please email E: enquiries.apprenticeships@westminster.ac.uk.

ESSENTIAL INFORMATION

We're here to help.

In this section you'll find information on:

- How to apply
- Fees and funding
- Advice for international students
- Our policies, terms and Student Charter
- Support we can offer (before and during your studies)
- How to find us

Any further questions? Please contact us at course-enquiries@westminster.ac.uk or visit us at our next open day.

HOW TO APPLY

For full-time courses you must apply online via the Universities and Colleges Admissions Service (UCAS), at ucas.com

If you are resident outside the UK, you can get advice from your school or college, or one of the University's official representatives, at westminster.ac.uk/international

We also have teams based in Beijing, Guangzhou and Delhi who can support you through the application process.

If you are a mature applicant and a resident in the UK, you can seek advice from careers organisations. Please also feel free to contact us.

If you are applying for a part-time degree, you should apply directly to the University online at westminster.ac.uk

T: +44 (0)20 7911 5000

E: course-enquiries@westminster.ac.uk

You can also contact us via our live chat, which you can find on any of our course pages.

ENTRY REQUIREMENTS

You will find a summary of the entry requirements for each course on the relevant course page of this prospectus. For further information please refer to our website or the UCAS website. As well as qualifications, we will look for additional evidence of suitability for a course; if your qualifications or experience indicate that you are more suited to a Foundation-level course at Westminster or an associated institution, you will be advised of this.

A LEVELS AND GCSEs

A Levels

We consider each application on its merits. In addition to A Levels, we also consider GCSEs, personal statement and reference when making an academic decision.

GCSEs

We require GCSE in English Language for all courses, GCSE Maths for most courses (and Science or Double Science where specified).

Standard entry requirements

At Westminster, we accept a range of Level 3 qualifications including:

- GCE A Level
- BTEC
- Scottish Certificate of Education
- Irish Certificate of Education
- T Levels
- HNC/HND
- Access to HE Diploma
- Foundation course
- International
- Welsh Baccalaureate

Please note that we are happy to consider applications that reflect a mixture of Level 3 qualifications either passed or being taken, as long as they are equivalent to our standard entry requirements.

INTERNATIONAL ENTRY REQUIREMENTS

We have extensive experience in evaluating non-UK qualifications. For country-specific information, please visit westminster.ac.uk/international

E: course-enquiries@westminster.ac.uk

INTERNATIONAL VISA REQUIREMENTS

Before you apply for your visa you must have accepted our unconditional offer of a place and have a Confirmation of Acceptance for Study (CAS) from the University of Westminster. The CAS is a unique reference number which confirms that you will be studying at Westminster. You will need this number for your visa application form. Your CAS will be issued once you have paid the minimum deposit towards your tuition fees. Further information about the deposit can be found on our website. westminster.ac.uk/international-student-deposits

If you need to apply for a student visa in order to study with us, then please read the information on our website at westminster.ac.uk/visas

LANGUAGE REQUIREMENTS

If your first language is not English, you will need a minimum IELTS score of 6.0 overall with 5.5 in each component, or a Westminster recognised equivalent. For some courses the minimum IELTS score will be higher, so please check individual course entries. These minimum scores may change if English requirements are increased by the UK Visa and Immigration Department. Applicants will be notified of any changes to our requirements. We offer pre-sessional summer programmes if you need to improve your English before your course; see p.116.

westminster.ac.uk/efl

ADMISSIONS POLICY AND GUIDES

Our Admissions Policy and Guides are available on our website. The guides aim to provide applicants with information on how we process applications and make decisions, as well as, for example, how to make a complaint if something has gone wrong during the pre-application and application process. You will also find the Terms and Conditions for students once enrolled at the University.

E: admissions@westminster.ac.uk

INTERVIEWS

For many courses a decision will be made on the basis of your application form alone. However, for some courses the selection process may include an interview in London or online, usually between December and April for full-time students, or March to early September for part-time students.

STUDENTS WITH DISABILITIES

We encourage applications from people with disabilities, long-term health conditions and Specific Learning Difficulties (dyslexia, dyspraxia, dyscalculia and ADHD).

The University of Westminster values the contribution disabled students make to its diverse community and admits its students on academic merit alone. However, for individual disabled students, it is important that we

If you are a prospective student looking for information about undergraduate or postgraduate courses and fees, contact the Course Enquiries Team.
T: +44 (0)20 7911 5000
E: course-enquiries@westminster.ac.uk

establish the reasonable adjustments possible and required to minimise the impact that their impairment might have on their studies.

If you have a disability, long-term health condition or Specific Learning Difficulty, please indicate this clearly on your application form. This will allow us to contact you as soon as you have been made an offer.

Determining an appropriate support package and applying for all sources of support, internal and external to the University, can take some time (eight weeks on average). A late disclosure of a disability may delay your support or make it impossible to put in place. Therefore, we are keen to hear from you as early as possible in the application process to avoid a deferral of entrance and disappointment.

For more information on the disclosure process and support available, please feel free to contact our Disability Learning Support team.
T: +44 (0)20 3506 8800
E: DLS@westminster.ac.uk
westminster.ac.uk/disability

NOTES FOR APPLICANTS

We will answer any enquiries you may have concerning application, fees, registration or transfers from other institutions, although many of your questions will be answered in this prospectus, on our website, or in the UCAS Guide for Applicants. While courses are offered as described at the time of going to press, sometimes revisions are made, mainly to ensure our courses are kept up-to-date. We will only cancel a course if it is unavoidable and will keep applicants informed of any major changes. There is no guarantee that courses that are undergoing validation will be approved.

Some modules, internships or work placements, and campuses may also be impacted by COVID-19 restrictions and/or government regulations.

TERMS AND CONDITIONS

Our Terms and Conditions are available via the course pages of our website. A link to download these terms is also provided as part of your offer of a place at the University.

HEALTH AND SAFETY

The University complies with the requirements under Section 3(i) of the Health and Safety at Work Act 1974. The University has a responsibility to the student and the public visiting the site, but the student has a responsibility to conduct themselves so as not to endanger their own health and safety, or the health and safety of others.

The University has a legal obligation to keep a record of all accidents that occur on its

premises, and students involved in any accident, however slight, are required to report the circumstances immediately to a first aider, safety contact or their supervisor.

DATA ACCESS

We take care to ensure the confidentiality of your application information. All details are held on the University computer system for internal administrative purposes and the compilation of statistics. However, if requested, we may provide information to UCAS, local education authorities, police forces and government departments (eg UK Visas and Immigration).

To request any personal data we keep on file about you, please contact us.
E: dpa@westminster.ac.uk

If you prefer, you can write to the Information Compliance Team, University of Westminster, 309 Regent Street, London W1B 2HW
westminster.ac.uk/data-subject-rights

FEES AND FUNDING

Student Finance England provides loans for higher education fees and living costs if you live in England and meet the residency conditions. Providing you are studying an eligible course, and this is your first time studying a higher education qualification, you will not have to pay your tuition fees up front if you qualify for funding.

The fee loans are not means tested, so you do not need to provide information about income. Maintenance loans, for your living costs, however, are assessed on your parents' income unless you are 25 or over, or if you qualify as an independent student. Loan repayments will start the year after you graduate or leave the course, and only when your salary reaches £25,000 or more.

UK (Home) students – applying for student finance

You do not need a confirmed place at university to apply for student finance. It's best to apply as early as possible even if you are not sure which university you will be going to. Please see gov.uk/student-finance for guidance on the application process, eligibility and support available.

You can use the student finance calculator to estimate:

- student loans
- extra student funding, eg if you are disabled or have children or an adult dependant.

Please also see our website for further information regarding other support available.
westminster.ac.uk/fees-and-funding

Confirmation of your registration at Westminster, and tuition fee payment

When you enrol at university you will need to bring your Student Finance Letter of Entitlement to show that your loans have been approved, and that the University of Westminster is shown as your place of study. You can also input your Student Support Number (from your entitlement letter) as part of the online enrolment process so that the University can send confirmation of registration to Student Finance England in order to release your maintenance loan payments.

The Tuition Fee Loan will be paid directly to the University once your attendance at the University is confirmed. If you are unable to provide your Student Support Number at enrolment, please ensure you contact the Library and Student Centre to provide us with this number.

University of Westminster Scholarships

The Scholarships Office offers a range of scholarships for undergraduate students. To be eligible to apply for a scholarship, you must first have been offered either a conditional or unconditional place on a course. Successful applicants are chosen on the basis of various criteria including academic merit and financial need.
westminster.ac.uk/study/fees-and-funding/scholarships

University of Westminster UK undergraduate fees

Undergraduate fees for UK students who meet the residency requirements are regulated by the UK Government. In September 2023 our tuition fees were £9,250 a year. For the latest information please visit our website.

University of Westminster international undergraduate fees and processes

The latest details of undergraduate international fees can be found on our website. As an international student, you will be asked to pay a deposit towards your fees when you accept your offer of a place to study with us. We will then issue you with a Confirmation of Acceptance of Studies (CAS), which you can use to apply for your visa. We have a team of visa advisers who can help you through this process. Please read the full deposit information at:
westminster.ac.uk/international-student-deposits

If you are an EU passport holder and unsure if you require a student visa, please visit our website for the latest information at:
westminster.ac.uk/visas or gov.uk/student-visa

COURSE STRUCTURE AND ROUTES TO STUDY

COURSE STRUCTURE

Bachelor of Arts (BA), Engineering (BEng), Law (LLB), Music (BMus) and Science (BSc) degree courses normally last three years full-time, or four years if you take a work/industrial placement year, or a year abroad. MSc courses normally last four years full-time, or five years if you take a work/industrial placement year, or year abroad. Undergraduate courses are modular and are taught over two semesters each academic year. Each module has a credit rating, and you gain credits for modules that you successfully complete. You continue to accumulate credits until you have gained enough for the award; an Honours degree requires a minimum of 360 credits.

At each credit level, you can choose from:

- core modules that must be studied
- option modules, where there is a choice within your subject area
- elective modules, where your course allows, giving a choice from outside your main subject area.

If you have recently been studying at another institution, you may be able to take a course at Westminster with credits already gained.

FOUNDATION PATHWAY

We offer Foundations as a route on to some of our undergraduate programmes. For module

information and any further details, please visit: westminster.ac.uk/foundation

INTERNATIONAL EXCHANGE PROGRAMME

We have a broad network of partnerships throughout the world, offering you the opportunity to study at one of our partner universities. You can go on a student exchange programme for one semester or, if your course allows it, a whole year.

westminster.ac.uk/westminster-abroad

PROFESSIONALLY ACCREDITED AWARDS

Courses in many of our core disciplines are accredited by professional bodies to allow exemption from exams following graduation, or to certify that the standards required for professional practice have been met. The criteria of the different bodies change from time to time, and if the University can give prior notification before the start of the academic year, you will be advised of changes that may affect your course.

PROFESSIONAL DEVELOPMENT COURSES

We offer an extensive range of courses to support your professional development. You can sign up to update your skills, build your network

and gain additional professional accreditations. westminster.ac.uk/professional-and-short-courses

UK SCHOOLS AND COLLEGES OUTREACH

We are here to help you support your students considering higher education or who are interested in studying at the University of Westminster through a range of services for teachers, advisers, tutors and curriculum staff. This includes:

- subject-specific insight days and presentations
 - on-campus visits and interactive workshops
 - higher education advice and guidance
 - higher education fairs eg UCAS
 - open days
 - summer schools
 - school and college visits in-person or virtual
 - student ambassador sessions and more.
- Our activities are available throughout the academic school year across one of our four campuses or in school/college and community spaces.

If you would like to arrange a visit or sessions for your students, or want to discuss partnership activities between our institutions, please get in touch.

E: outreach@westminster.ac.uk
westminster.ac.uk/outreach

MATURE STUDENTS

Around one in six of our full-time first degree or undergraduate students is over 21 when they apply. The vast majority of mature students who are accepted successfully complete their course, but returning to study can be challenging. To help you meet that challenge you will have access to tutorial support, and we provide a series of workshops on getting to grips with university life, and brushing up on your study skills.

Formal qualifications are only one measure of your ability to study at a higher level. Work or other experience, maturity of approach, commitment and enthusiasm are also

important. We take these factors into account when making offers of places.

Students of any age who have acquired certificated learning at an appropriate level can be exempted from specific modules, through the Recognition of Prior Learning (RPL) system. However, if you are 21 or over, the knowledge and skills which you have gained through life, work experience and study may be eligible for credits towards your course under the Recognition of Prior Experiential Learning (RPEL) programme.

For more information contact the Admissions Team:

T: +44 (0)20 7911 5000

E: RPLAdmin@westminster.ac.uk

PART-TIME STUDENTS AND FLEXIBLE STUDY MODES

Many of our students are studying part-time, either taking degrees, on short courses or working to gain professional accreditation. Achieving a degree part-time takes five years on average. Students requiring a student visa to study with us cannot apply for part-time courses. Apply for a part-time course on the course page of our website. westminster.ac.uk/study

INTERNATIONAL FOUNDATION COURSE

For international students who do not meet our Bachelors degree entry requirements, we work in partnership with Kaplan International College (KIC) London to provide International Foundation and Year One courses with guaranteed progression to your chosen degree (subject to meeting entry criteria and visa requirements); for more information, see p.115, or visit kaplanpathways.com

We also recognise qualifications from a number of other International Foundation providers. See the University Preparation Courses section on our website for a full list. westminster.ac.uk/university-preparation-courses

INTERNATIONAL

With over 6,000 international students, the University of Westminster has plenty of experience giving you the help and support you need to make the most of your time with us.

MEET US IN YOUR COUNTRY

Our staff are available to meet students at overseas exhibitions and school visits and at a range of virtual events. We also work with representatives around the world who can help you with your application to Westminster. For more information, visit westminster.ac.uk/international

We also have teams based in Beijing, Guangzhou and Delhi.

E: southasia@westminster.ac.uk

E: china@westminster.ac.uk

INSTITUTIONAL PARTNERSHIPS

We have a wide range of partnerships with universities and academic institutions in the UK and overseas that allow students to progress on to degree courses at Westminster. For further information visit westminster.ac.uk/international

STUDENT VISAS

For information about whether you require a visa in order to study with us, including if you hold an EU passport, as well as details of how to apply, please visit our website at westminster.ac.uk/visas or gov.uk/student-visa. Please note that part-time study is not available if you are in the UK on a student visa.

OVERSEAS EXPERIENCES

You will have a lot of opportunities to improve your employability prospects and broaden your horizons by taking part in an experience abroad. Global opportunities offered to our students range from studying at a partner university for a semester or a year, taking part in a summer school, volunteering, doing an internship or taking part in an academic field trip or our Westminster Working Cultures programme. Whichever path you choose, we guarantee it will be an amazing chance for you to live and learn

in another country.
westminster.ac.uk/westminster-abroad

The University of Westminster seeks to continue participating in the Turing Scheme and is working closely with partner institutions to ensure continued study and work opportunities for UK students in countries around the world. For details on the opportunities available, please visit westminster.ac.uk/westminster-abroad

PARTNER UNIVERSITY STUDENTS

Our exchange programmes also offer the opportunity for students from partner institutions to come to Westminster for a semester or year. The exchanges are subject-based, so visit westminster.ac.uk/student-exchanges for details of the study opportunities available.

Don't worry if you are not from one of our partner universities. You can still come to study with us on one of our study abroad programmes.

STUDY ABROAD PROGRAMMES

Westminster's study abroad programmes give you the opportunity to come to study for a semester, academic year or summer. You can also add an internship in the semester. The programmes are designed to immerse you in the life of the University and the city of London. They offer you the chance to enhance your academic learning and future employability, and to undertake a unique adventure that will be a life-changing experience.

The University of Westminster is proud to be a Generation Study Abroad commitment partner.
westminster.ac.uk/study-abroad

STUDENT AND ACADEMIC SUPPORT

STUDENT CENTRE

Our Student Centre teams at the help desks at Cavendish, Harrow and Marylebone Libraries will be happy to help you with any of your enquiries. If they can't answer your question, they will know who can and pass your query on for you.

E: studentcentre@westminster.ac.uk

STUDENT HUB

This is an online area where you will find all the information and guidance you may need to support you through your life at Westminster (eg My Student Record, timetables and booking systems). There is also a live chat available so you can get support with any queries you have. You can visit your Student Hub at westminster.ac.uk/Hub

BLACKBOARD

Our Virtual Learning Environment (VLE) Blackboard Ultra is used to support digital teaching and learning at Westminster as part of students' overall learning experience. The VLE allows for both live and self-directed online learning and is also used to support different forms of assessment and reflection on learning.

ACADEMIC ENGLISH

We offer Academic English support which you can take as part of your degree course.
westminster.ac.uk/academic-english

STUDENT CHARTER

An effective partnership between students and staff is vital to the success of the University and our students, and our Student Charter forms the basis of this relationship.
westminster.ac.uk/student-charter

ADVICE AND SUPPORT

Student Advice

We offer practical information and professional advice on a range of issues including student finance entitlement, welfare benefits and money management. We provide immigration and visa advice to international students including EU/EEA and Swiss

nationals, and advice on other general issues such as working in the UK. We offer additional support to students who have been in care and students who are estranged from their family.
westminster.ac.uk/advice

Student funding

For enquiries regarding registration confirmation to Student Finance England, Oyster card applications, the Living Expenses Support Scheme, and funding for US students.
westminster.ac.uk/funding

Counselling and mental health advice

Our diverse team of counsellors and mental health advisers are experienced in supporting students from different backgrounds and cultures.

The team is happy to provide confidential support with anything that is bothering you, including study difficulties, relationship problems, anxiety or depression, mental health challenges or difficult life events. We understand that it can be hard to ask for help, but we would encourage you to contact us if you are experiencing difficulties.

E: counselling@westminster.ac.uk
westminster.ac.uk/counselling

Care leaver and estranged students support

For students who have been in care (local authority/public care, foster care, semi-independent living or residential care homes) individual additional support is available from the Care Leaver Co-ordinator. We also offer help and advice for estranged students who are young people studying without the support and approval of a family network. Additional support is available from our Estranged Student Co-ordinator.
westminster.ac.uk/care-leaver-support
westminster.ac.uk/estranged-students

Faith and Spirituality

The Faith and Spirituality team are here to encourage all students and colleagues to explore their sense of spiritual wellbeing as

ACADEMIC SUPPORT FOR INTERNATIONAL STUDENTS

part of an authentic learning experience. We offer a compassionate space to contemplate together in the spirit of openness and honesty. We provide opportunities for confidential contact on an occasional or regular basis, especially in times of difficulty.

westminster.ac.uk/faith-and-spirituality

LEARNING SUPPORT

The Academic Engagement and Learning Development team can support you in developing key academic, library and study skills which are vital to your studies and life beyond university. You can access our online services for quick support, attend online and in-person workshops on a range of subjects, make use of our one-to-one service and see us delivering sessions in your modules.

E: studentcentre@westminster.ac.uk
westminster.ac.uk/learning-and-study-skills-support

Disability Learning Support

If you have a Specific Learning Difficulty (such as dyslexia, dyspraxia or ADHD), mental health condition, long-term health condition (such as epilepsy or diabetes) or any other disability, please contact us to find out what additional support is available.

westminster.ac.uk/disability

Digital skills and capabilities

We offer our students access to a range of free digital capability development courses. Completing any of these online courses and passing an online test will help you develop valuable skills. There are a range of Microsoft and Adobe online courses available, including the Microsoft fundamentals programme that focuses on cloud technology and artificial intelligence and offers free Microsoft accreditation. As part of the programme of support all students have free access to LinkedIn Learning.

PERSONAL TUTORING

Personal tutoring is a crucial aspect of how the University supports you, helping you fulfil your academic and personal potential. All undergraduate students are assigned a personal tutor and you can speak to them about planning which modules to take, choosing option modules, gaining further study skills and any matters affecting your studies.

STUDENT WELLBEING

Our aim is to support you during your studies to succeed and enjoy your personal and academic journey. Your personal tutor should be your first port of call if you have a concern or are in need of specialist support. They can refer you to a wellbeing adviser. We provide confidential information and advice on a range of topics such as mental health, general wellbeing, homelessness and healthier lifestyles.

E: student-wellbeing@westminster.ac.uk
westminster.ac.uk/student-wellbeing

REPORT AND SUPPORT

We are a compassionate community that looks out for each other and our collective wellbeing. Our Report and Support platform allows students to make a report if they experience any bullying and harassment, discrimination, hate crime or sexual misconduct. You may choose to disclose anonymously or with your contact details.

reportandsupport.westminster.ac.uk

CAREERS AND EMPLOYMENT

Our Careers and Employability Service can help you throughout your studies and for up to three years after graduation. We can also support you to find part-time jobs on campus, as well as work placements and volunteering opportunities.

INTERNATIONAL FOUNDATION

Delivered by Kaplan International College (KIC) London, the Foundation is designed to prepare you for undergraduate study. Progression to Westminster is guaranteed (subject to visa requirements) if you complete your KIC London course and achieve the required grades.

These courses are for international students who do not meet the entrance requirements for our Bachelors degrees in the following areas:

- Accounting and Finance
- Architecture, Interiors and Urban Design
- Art, Design and Visual Culture
- Biological and Biomedical Sciences
- Business and Management
- Computer Science and Engineering
- Construction, Surveying and Real Estate
- Criminology and Sociology
- Data Science and Informatics
- Economics
- Fashion
- History
- Law
- Media and Communication
- Nutrition and Public Health
- Politics and International Relations
- Psychology
- Tourism and Events Management

The Foundation covers a range of skills that will allow you to progress to the University of Westminster and study with confidence. These include subject-specific academic modules

alongside note taking, presentation skills, essay writing and much more. English language tuition is also provided at a range of levels.

Subjects of study on the Foundation in Art and Design include:

- Art, Design and Media
- Contemporary Art in Context
- Creative Practice and Portfolio
- Entrepreneurship
- Intermediate Digital Applications
- Visual Culture

Subjects of study on the Foundation in Business, Law and Social Sciences include:

- Business Organisations and Management
- Contemporary Global Issues
- Digital Applications
- Economics
- Entrepreneurship
- Historical Perspectives
- Logic and Critical Thinking
- People, Culture and Society
- Statistics

Subjects of study on the Foundation in Science and Engineering include:

- Biology
- Chemistry
- Contemporary Global Issues
- Digital Applications
- Information Technology
- Maths
- Physics

Course title	Course duration	Location	Entry requirements
International Foundation	Between seven and eleven months depending on English level at point of entry. Start dates are available in September, October and January.	KIC London, London Bridge	In general, entry to the Foundation Certificate requires you to have passed Grade 12 (or equivalent). You will need to show proof of English language ability, usually an IELTS test (or equivalent). A higher IELTS score means your course will be shorter and you can progress to your Bachelors degree more quickly. For specific entry requirements and general information, contact KIC London. Apply directly at kaplanpathways.com/university-of-westminster

On successful completion of the Foundation Certificate at KIC London, you will progress to the first year of an undergraduate degree at the University of Westminster.

In addition to the International Foundation, Kaplan also offer International Year One and general English courses which support, or provide entry into some of our degree courses. [kaplanpathways.com/westminster/contact](https://www.kaplanpathways.com/westminster/contact)

ENGLISH LANGUAGE SUPPORT

The University of Westminster offers a range of courses to support the development of your English language ability. Our Academic English modules and pre-sessional English Language courses will develop:

- your understanding of what is required on your future degree course
- the accuracy of your English, including academic language
- your range of academic vocabulary, with a focus on collocation and word families
- your ability to apply academic language across a variety of text types in your research
- your essay and report-writing skills through ongoing practice
- effective strategies for reading academic books, journal articles and case studies
- the listening and note-taking skills necessary to benefit from university lectures
- your ability and confidence to participate in group discussions and seminars on academic topics
- your presentation skills, including pronunciation, stress and intonation
- your confidence in being able to follow university-level courses in English.

ACADEMIC ENGLISH

Our Academic English modules have been designed to allow you to consolidate, extend and develop your proficiency in Academic English. Enrolment for Academic English will take place during orientation week and learning week one. Exact dates and time-slots are published in early September. During enrolment we can determine whether an Academic English module is appropriate for you.

You can find more information online, at [westminster.ac.uk/academic-english](https://www.westminster.ac.uk/academic-english)

PRE-SESSIONAL ENGLISH

If you are an international student, you can register on one of our pre-sessional English Language courses which will help you develop the language and study skills you need for academic success on a full-time undergraduate course.

Our aim is to provide you with a solid foundation for when you start your degree course, and to give you the skills, knowledge and experience to make the most of your time at university. The course materials and assessments will also have a disciplinary focus, as a further means of preparing you for your future degree.

As a full-time pre-sessional student you will be expected to do homework which will lead to formal assessments at the end of the course.

You can find more information online, at [westminster.ac.uk/pre-sessional](https://www.westminster.ac.uk/pre-sessional)

WESTMINSTER PROVIDES PLENTY OF EMPLOYABILITY SUPPORT

I've found that Westminster provides students with plenty of employability support. The Careers team is there to help you improve your CV, find and secure work placements, and organise networking events for you to attend. In my first year I received a Westminster Student Academic Excellence Award, which made me feel like my hard work was being rewarded and it inspired me to continue doing so.

Alexandra Bukhareva,
recent graduate

THE UNIVERSITY HAS OFFERED ME A COMMUNITY THAT ENCOURAGES DIVERSITY AND INCLUSIVITY

I had doubts about attending university as I thought I wasn't intelligent or competent enough. I feared that I would be unable to make new friends and integrate into the system effectively. I've been positively surprised as Westminster has proved to be the complete opposite. The University has offered me a community that encourages diversity, inclusivity and so much more. It has offered me a place to call home.

Ilyass Jalloh,
third-year student

OPEN DAYS

VISIT US AT AN OPEN DAY

Open days are the perfect opportunity to find out everything you need to know about studying at the University of Westminster. Visiting us will allow you to

Get a feel for our University in London
Be yourself at Westminster and meet our diverse, supportive and welcoming community

Discover more about your course
Talk to a course representative and current students to explore what you'd be studying and learn about student life

Check out the campus and facilities
See our classrooms, studios, labs, libraries, common spaces and accommodation

Find out more about careers
Learn how our placements, careers fairs, studying abroad and mentoring schemes prepare you for your future

Our open days are interactive events, allowing you to chat to staff throughout the day to ask any questions you may have about:

- student finance
- the admissions process
- careers and employability
- accommodation
- study/work abroad
- disability learning support
- wellbeing.

Please see our website for details of our upcoming open days and to book your place.
